

SIX MANDATORY CME PROGRAMS FOR CONNECTICUT MEDICAL LICENSE RENEWAL

AVAILABLE ONLINE

In June 2016, there was a presentation of the six **Mandatory CME Topics for Connecticut Medical License Renewal**. Through an arrangement with the Fairfield County Medical Association, members of the Hartford County Medical Association can view the six videos from that session. The topics presented include:

- Mental Health Conditions Common to Veterans (newly mandated, falls under Behavioral Health)
- Prescribing Controlled Substances and Pain Management (newly mandated, falls under Risk Management)
- Sexual Assault
- Domestic Violence
- Infectious Diseases (including AIDS and HIV)
- Cultural Competency

For online viewing, go to <http://bit.ly/HCMACME> (go to CME, OSHA & Compliance, FCMA educational library). Take only those courses that you may need. After viewing the videos, download the questionnaires and return with the order form and payment. Staff will then send you a **Certificate of Completion**.
